Oxidation-Filtration System						
AdEdge Packaged System		APU26-3660CS-3-AVH	1	Design Flow Rate:	125 gpm	1
Media:	<del></del>	AD26L		Treated gallons/day :	40,000 gal/day	
Number of Vessels:	<del> </del>	3		ydraulic Utilization %:	22%	
Vessel Information:		PSI Non-Code Carbon Steel		draulic Culization %	5.9 gpm/sqft	
Size of Vessels		6 in D x 60 in Side Shell		ashing Configuration:	Reverse Flow Backwash	
Operation:		Parallel		kwashing Frequency:	Every 12.2 days	
Approximate System footprint		20' L x 8' W		ackwashing flow rate:	125 gpm	
Piping Material		Sch 80 PVC		washing loading rate:	17 gpm/sqft	
Total Qty of AD26L Media		64 cuft		BW water per Event:	3,750 gallons	
		10 Years			1,250 gallons	
Est. Media life (Years):	·	10 15415	_ ESt.	BW water per Vessel:	1,230 gailons	
					*All parameters are based on	hydraulic utilization provided
					All parameters are based on	riyuradiic diliization provided.
System Costs						
		Capital Cost			<b>Annualized O&amp;M Cost</b>	
Treatment System in WaterPOD: Included		Est. Annual Oper. Costs		\$767	(Media, NaOCI)	
Equipment Shop drawings		Included		Costs per 1000 gal:	\$0.05	(avg calculated per 1,000 gal)
AdEdge Startup and Commissioning		Included			,	1( 5
Engineering / Permitting		By Engineer				
Taxes (if applicable):		Not included				
Total capital, startup (sans freight)		\$162,400				
Freight		\$1,000				
Optional HVAC unit in WaterPOD:		\$7,350				
Optional WaterPOD wood siding		\$21,850

	Detail	Design	Supply	Install
	APU26-3660CS-3-AVH-WP, Carbon Steel Vessel System in a WaterPOD container, Automatic Operation	AdEdge	AdEdge	Others
	Pre-packaged Skid Mounted System with Vessels, Interconnecting Piping, and Valve Harness designed to run in parallel. System is			
	shipped Factory Assembled, Skid Mounted, Pre-piped and Wired, Pressure and Flow Tested, and Ready for Installation.			
Α (	Carbon Steel Pressure Vessels	AdEdge	AdEdge	Others
-	Carbon Steel Vessels Operating in parallel with Media and Underbedding			
	100 psi Non-Code Vessels			
	Vessels are lined with internal NSF61 Epoxy Liner			
	One (1) Drain Valve per Vessel			
	One (1) Manway for Media Loading			
	Internal Inlet Distributor and Hub and Lateral Design			
	One (1) Combination Air/Vacuum Release Valve per Vessel			
	Process Valves and Piping	AdEdge	AdEdge	Others
	Inlet, Treated Outlet, and Backwash Headers with Flanged Tie Points			
	Harness Piping on Each Vessel			
	Valve Harness with Five (5) Lug-Style Bray Butterfly Control Valves with 120VAC RCEL Electric Actuators			
	Manual Isolation Valve at the Inlet of Each Vessel			
	Manual Flow Control Valve on System Backwash Outlet			
	Manual Flow Control Valve on System Treated Outlet			
-	Reverse Flow Backwash Configuration			
	PLC and Controls Detail	Aded	Aded	Out
	Automatic System Operation (Service, Backwash, and Rinse Modes)	AdEdge	AdEdge	Others
	Allen Bradley Micrologix 1400 PLC Installed Inside Control Panel for Automatic Operation C-More 10" Color Touch Screen HMI Mounted on Control Panel			
,	Operator "Touch" Graphics Screens for Automatic and Manual Operation			
	304SS NEMA 4X Skid-mounted Control Panel to House Electrical and System Controls			
	Terminal Locations on Control Panel for Ancillary Controls and Device Inputs/Outputs (factory installed and labeled)			
	Terminal cocations on control Panel for Ancinary Controls and Device inputs/outputs (factory installed and labeled)			
0	Instrumentation / Monitoring	AdEdge	AdEdge	Others
	304SS Hydraulic Panel with System Inlet/Outlet Pressure Gauges and Sample Ports, One (1) per system	Autuge	Autuge	Others
	Pressure Gauges and Sample Ports on Each Vessel's Inlet and Outlet			
	E+H Electromagnetic Promag L400 Flow Meter on Each Vessel's Inlet			
	Pressure Sensors on System Inlet/Outlet for System DP measurement			
	Tessure sensors on system mery outlet for system of measurement			
E 1	WaterPOD Container	AdEdge	AdEdge	Others
	One (1) 20-foot long Container			
	External Dimensions - 20' Length x 8' Width x 9.5' Height			
	Internal Dimensions - 19.5' Length x 7.5' Width			
	External Solid Color Marine Grade Industrial Enamel			
	Double-swing corrugated steel panel doors with locking devices			
	Lighting & Electrical Panel			
	Electrical sub-panel w/ 3-phase circuit breaker			
	Interior overhead fluorescent light fixtures			
	Interior-mounted electrical receptacles			
	PVC Coating on Plywood floor			
	Interior wall and ceiling insulation			
	One (1) Electric Wall Heater			
	One (1) Shutter Mount Exhaust Fan			
	One (1) Rain Driven Louver for supply air			
e li	Included Field Services and Miscellaneous	AdEdge	AdEdge	NA
	O&M Manuals (+1 Hardcopy, +1 Electronic Copy) including Engineering Drawings, Design Report, and Control Description	Aucuge	Autuge	IVA
	System Commissioning Plan and Coordination of Installation with Installer (Pre-Startup)			
	System Commissioning Plan and Coordination of installation with installer (Pre-startup)  System Startup and Comissioning On-Site Including Media Loading Supervision and Initial Media Flush			
	Three (3) x 8 hour Days Included for Start-Up and Training. Additional Work Billed on Time and Materials Basis			
	Operator Training During System Startup			
,	Speciation from the System Statesty			
3	Factory Testing	AdEdge	AdEdge	NA
	Factory Acceptance Testing in accordance with AdEdge QC procedures and SOPs			110
	Hydraulic and Mechanical Testing to Ensure System Meets Requirements			
	Pressure Testing per AdEdge Standard Procedures to Test for Leaks			
	Warranty and Maintenance	NA	AdEdge	NA

- AdEdge will coordinate closely with Installer and the Engineer on all equipment and design related items

- System will be shipped on a flatbed trailer for offloading by others with appropriate equipment and trained operator
  Media will be shipped in bags on pallets for offloading by forklift By Others
  No seismic engineering or seismic related design or equipment modifications are considered in the pricing; can be incorporated as appropriate for the project
- Costs of metal components, especially steel, in our system are subject to change due to the volatilities of market pricing and imposed taxes and tariffs, therefore AdEdge reserves the right to adjust pricing to pass along any such increases.

- | Items Supplied By Others / Contractor

  A Installation, interconnecting pipe to the system, and appropriate electrical connections to AdEdge Equipment
  B Pressurized water supply for use during start-up
  C Non-AdEdge system related site, civil, or structural engineering or support costs from Owner
  D Safety equipment as required for media loading, startup/commissioning

  - Safety equipment as required for meals loading, startup/commissioning
    Offloading, storage and placement of all equipment and media
    Site work and any building structure / facility or shade structure to be provided; HVAC
    Construction of structural concrete pad as necessary for treatment equipment provided by AdEdge
    Anchoring Equipment, tanks and other equipment to the building's foundation/structural pads
    Dedicated power supply to AdEdge equipment; Interconnecting control and instrumentation wiring to control panel
    Two laborers for one day for Media loading with AdEdge Supervision

  - Interface with Regulators / Permitting and all permits for successful completion of the project
